The following in-service has been performed on my MTI product(s):

Set Smart Controller™ Settings

Enter the User Program Mode in the Smart Controller™ to change how the Program Buttons and the swivel (if applicable) operate. See page "Smart Controller™ Technology" in the User Manual.

Button Setting

Momentary

Maintained

[Factory default] Momentary Program Buttons: press and release to automatically move chair to the programmed position.

Maintained Program Buttons: press and hold to move chair to the programmed position. Once button is released, chair will stop.

Swivel Setting (if applicable)

Auto-Lock

Lock/Unlock

[Factory default] Auto-Lock Swivel: pressing the Swivel Button will unlock the swivel. Swivel will automatically lock after 30 seconds or pressing any button will lock the swivel.

Lock/Unlock Swivel: pressing Swivel Button once will unlock the swivel. The swivel will not lock again until any button is pressed.

Saved Programmable Home

Save by positioning chair to desired location. If buttons are set to Momentary: press and hold the Home Button for 10 seconds. If buttons are set to Maintained: Press the Stop button twice and then press and hold the Home Button for 10 seconds. Once saved, audible and visual confirmation will be received.

Reviewed ADA Compliant Home

ADA Compliant Home position is Lift Down, Tilt Down, Back Up, and Foot Down and Retracted. To access: if buttons are set to Momentary, press and release the Home Button twice (within 1 second). If buttons are set to Maintained, press and hold the Home Button twice (within 1 second).

Saved (4) User Program Buttons (P1-P4)

Save by positioning chair to desired location, press and hold the desired program button for 5 seconds. Once saved, audible and visual confirmation will be received.

Reviewed Safety Lockout

Locks out all commands once this state has been enabled. To enter, press the following sequence of buttons: Stop, Stop, Back Up, Stop. Once enabled, audible and visual confirmation will be received.

Reviewed Controls and Operation sections of the User Manual

To exit, press the following sequence of buttons: Stop, Stop, Back Down, Stop. Once disabled, audible and visual confirmation will be received.

In-service training which meets our requirements for operation and use of above described equipment has been provided by _____.

Customer Signature: _____ Title: _____ Date: _____

Customer Name: _____ Email: _____

I would like to be contacted to give a testimonial on my MTI products.

Once complete, email to in-service@mti.net
